Snow Storm Stella Update: Frederick County Highway Crews Report All Roads Are Now Open

Residential recycling collections shifted one day later than their usual day

FREDERICK, MD – Frederick County Highway Operations crews report that all roads are open now that Snow Storm Stella has moved out of the area. Crews will work until 4 p.m. to complete road widening activities and return to the roadways to address icy spots and areas where drifting has occurred on Wednesday morning at 6 a.m.

Frederick County offices and facilities are accessible to the public and employees, and it is anticipated they will open on schedule Wednesday morning.

As previously announced by the Department of Solid Waste Management, curbside recycling collection was postponed today due to Snow Storm Stella. All recycling collections for the remainder of the week will shift one day later than their usual day.

For residential recycling service, some streets may still be inaccessible for collection trucks on Wednesday; drivers will attempt to collect recyclables wherever possible. If road conditions prevent recycling collection along a particular street on its shifted collection day, residents are asked to leave their carts out until the next day, so that crews may attempt to collect again.

Residents are encouraged to visit www.FrederickCountyMD.gov/recycle and click the link to “Stay Informed.” This free service issues up-to-date information regarding facility closures and recycling schedule changes, via email, phone call, text or Tweet. Residents may also call 301-600-2890 to hear phone messages or follow the news feed at [www.Facebook.com/FrederickRecycles](https://www.facebook.com/FrederickRecycles).

For more information, visit www.FrederickCountyMD.gov or contact Highway Operations at 301-600-1564 or via e-mail at roads@FrederickCountyMD.gov to report concerns.
